DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Ellis on November 16, 2005.

The application has been amended as follows:

- 1) In claim 7, line 10, delete "which".
- 2) In claim 13, line 15, before "corresponding", add --without--.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose and would not suggest the step/means for determining whether a token either corresponds to one previously encountered token in the list as a recurring token in the token stream, or else is a unique token in the token stream without corresponding to the at least one previously encountered token in the token list, as is now recited in independent claims 1, 7, and 13. Carlgren et al. do not disclose checking for previously encountered tokens in a "stream-like" manner as now required. Rather, Carlgren et al. disclose making a vocabulary of all the words (tokens) in a given

text, then performs subsequent analysis, while the present invention examines the text token by token as the tokens are received in a stream.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
